The Valley Alliance of Worker Co-operatives

Supporting the Success of Worker Co-operation in the Valley & Beyond

As an **Organizational Associate** you are invited to attend meetings, are listed on our website and social media, and receive our annual report reviewing activities and membership.

Organizational Partners – open to co-operatives only – receive all that Associates do as well as becoming a component of our educational work. Organizational Partners outside VAWC's service region are eligible to submit requests for interns from our Certificate of Co-operative Enterprise at the University of Massachusetts, Amherst. You will directly support our work in the UMass, Amherst, Co-operative Enterprise Collaborative where last year we had 100+ undergraduates in courses we focused on co-ops. For more information email us anytime: info@valleyworker.coop.

We envision a co-operative economy where one can live an entirely co-operative day: An economy built on workers' self-determination and freedom of action and association; an economy of breadth and depth that puts working people in control of their economic destiny while serving their communities in accordance with the co-operative values and principles.
